Projekt Manager Software-Developer (m/f/d) (EN)

Location:

Germany, Aachen

Worktime:

Full-time

What we do - And why!

Mobility connects people. People shape mobility. With over 7,300 employees around the globe, we develop revolutionary and efficient drive systems, we cross-link vehicles with each other and their surroundings, and we strive to make our lives safer using intelligent systems. We need the right people at the right place to do so. People who turn visions into reality - who think outside the box and promote innovation. People who are ready to push the envelope. Are you ready?

Tasks

Do you want to be part of the digitalization of this industry in what is probably the most exciting time since the invention of the automobile?

FEV develops high-quality software products and solutions for vehicles and powertrains that are used by customers worldwide.

As a Project Manager Software (m/f/d), you will design exciting projects / sub-projects together with our customers.

Your main tasks include:

- Technical and business responsibility for your project

- Close contact to the customer

- Supporting the acquisition of new projects

Working in close cooperation with the development team regarding

- Design of suitable software solutions taking into account the customer's requirements and the customer's existing ecosystem

- Selection of a suitable Sw technology stack

- Active support of the implementation

In addition, you will contribute to the continuous improvement of our processes and toolchain with the knowledge gained from your project.

Qualification

Completed studies / completed apprenticeship in informatics

Sound experience in project management

Friendly and confident appearance towards customers

Several years of professional experience in the area of conceptual design of software solutions

Familiarity with agile methods such as Scrum

Previous experience with CMMI or A-SPICE is an advantage

Familiarity with tools such as GitHub, Confluence and Jira

Very good German and English skills, both written and spoken

Independent and self-reliant way of working

Ability to work in a team

What we offer

Shape the mobility of tomorrow

Work on innovative and cutting-edge challenges.

Work flexible

Our flexible model of scheduling work, our attractive remote-work-model and our office daycare (site-dependent) center will allow you to find a perfect balance between your personal and professional life.

Expand your horizons

Not only will working on new technologies every day help you improve yourself, but our continuing

education program will also help you stay up to date at all times.

Keep in shape

An extensive offering of company sports activities (site-dependent) and company health management will keep you in shape and ensure you are well balanced.

Experience appreciation

An attractive base salary and numerous other benefits offer new opportunities for you.
